 - Other R&E Networks
- Dark Shading: Connected to regional network
Light Shading: Eligible to connect to regional network

GÉANT and partner networks enabling user collaboration across the globe

September 2014

Client Connectivity and Shared Services

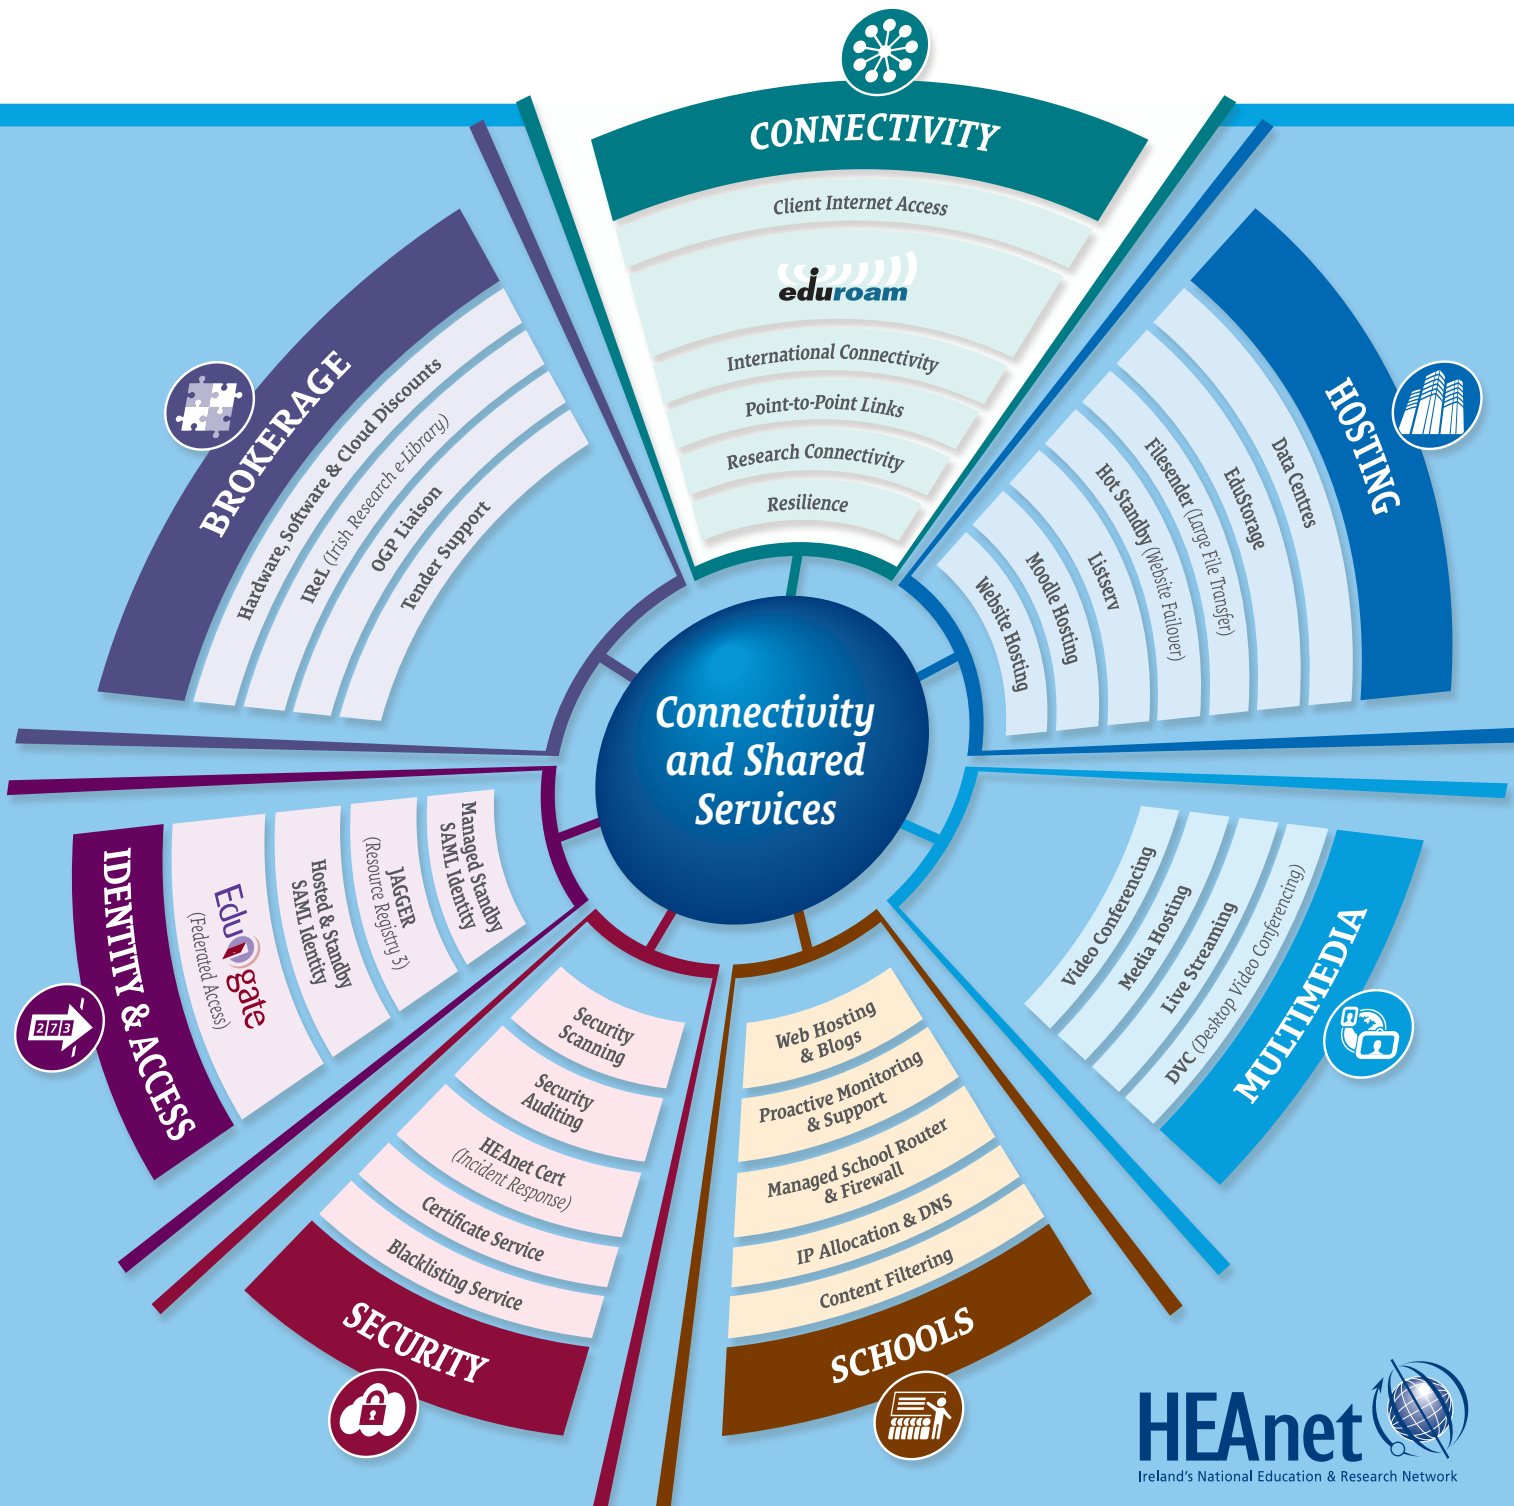

HEAnet's extensive portfolio of shared services has everything from data centre hosting, managed applications, worldwide wifi roaming, network storage, a multi-platform video collaboration network and more, all secured and supported by experts.

Network Operations Centre (NOC)

Support for HEAnet services is available through the NOC.

The NOC is committed to ensuring every client receives a consistent, responsive service regardless of the issue at hand, with an emphasis on minimising client disruption.

HEAnet at a Glance

HEAnet is Ireland's National Education and Research Network, providing internet connectivity and associated ICT services to education and research organisations throughout Ireland

HEAnet's Mission: To realise Ireland's education and research goals, in partnership with our clients, by providing advanced infrastructure and services

HEAnet provides students and staff in the higher education and research sector with **high-speed resilient internet connectivity** to each other, as well as their peers across Ireland, Europe, the USA, Asia and the rest of the world

HEAnet services underpin education activity in Ireland, with approximately **one million people** relying on the network each day for their learning and research needs

HEAnet's Brokerage Services save clients money, time and effort by providing a portfolio of agreements. Brokered using our commercial and technical expertise, these span a wide range of products and services from software licensing to cloud based solutions

The Shared Services offered by HEAnet provide value-for-money to the higher education and research sector in Ireland, generating **net savings** of approx. **€20 million per annum** to the Irish tax payer

HEAnet is publicly funded through the Higher Education Authority (HEA), the Department of Education and Skills (DES), the European Commission (EC) and its third-level sector client charges

Every post-primary school in the country now has a 100 Mbps high-speed broadband connection, rolled out on behalf of the Irish Government by HEAnet

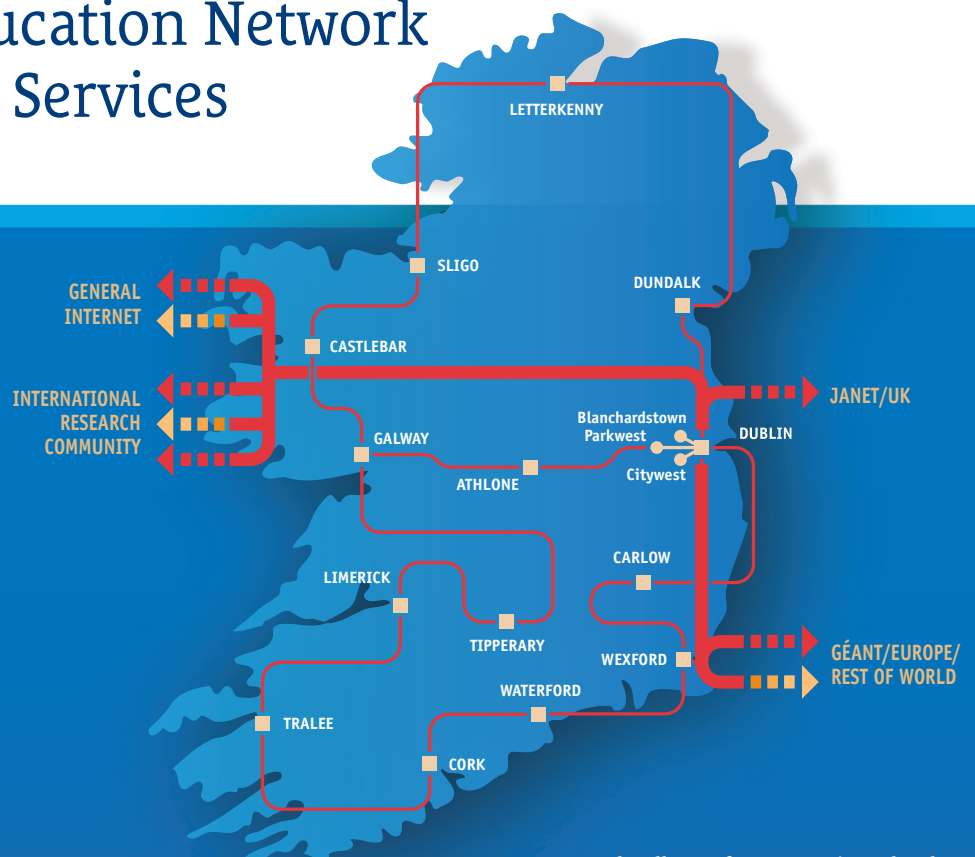

HEAnet and the global education and research community form a collaborative partnership; working together on **innovative solutions** and service enhancement projects for the benefit of all our clients

HEAnet's high capacity, high availability next-generation network is amongst the best in Europe and provides a **platform for the future**, which is regarded as a strategic national asset
