Ian Roller, Project Co-ordinator, Dublin Institute of Technology - clicnews.ie

- "We moved to HEAnet for better access to support. That has proven to be the right move. With our previous host, we wouldn't have gotten that without paying a lot more."
- "The support has been terrific, particularly with our recent server migration...we're not just a number."
- "It made sense to change over. DIT is part of the HEAnet network, and so are all the primary schools, so we're in the right 'family' of hosting provider."
