

# Security Solutions in the Education Sector

Definitive Solutions has been delivering IT systems and security for over 20 years.

Since 2020, Definitive Solutions a SonicWall Platinum Partner, in partnership with SonicWall have been a supplier on the Office of Government Procurement (OGP) "Framework to supply Firewalls and Associated Services". Operating as part of the Department of Public Expenditure and Reform, the OGP framework is designed to offer best-of-breed solutions to the Irish public sector including Education.

SonicWall security products offer cost effective solutions to address the ever increasing threats in the cybersecurity landscape and help deliver secure mobile and flexible working.

Definitive Solutions see our fundamental role as protecting our clients, their data, and their reputation. As security specialists, we focus on risk mitigation, and work with our clients to identify any potential weaknesses in their systems and to provide the most cost effective solutions to mitigate these.

## What our clients say:

“Their delivery of IT security services is to the highest quality both on a technical and customer service level and we can always count on their excellent team of engineers and staff to find the best solutions to meet our business needs. As such, I would recommend Definitive Solutions for anyone looking for trustworthy advice, tailored security solutions and value service.”

**Alan Leamy**  
CEO, Perigord Life Science Solutions

“Following the lockdown restrictions of March 2020, we urgently required a system where we could efficiently collaborate online as a team and with external users, but also have a high level of safety and security. Definitive quickly provided us with a secure solution.

Thanks to their expert support and hard-work we were up and running in no-time. I would highly recommend Definitive Solutions; they provide the security and peace of mind required to run your systems professionally”

**Thérèse Gamble**

Director, Drumcondra Education Centre

We are not just another IT provider; our success has been built on trust and our focus is always on building strong relationships. We take the time to really understand our clients' business challenges and goals, and then implement technologies and solutions tailored to their unique business requirements.

Our clients operate within highly regulated industries, including education, financial services, public sector, distribution, and pharma. These are sectors that require the highest levels of security and where adherence to strict compliance and regulatory standards is mandatory. We work closely with SonicWall to ensure that their technology strategy is aligned with all compliance and security needs.

Please contact us if you wish to discuss any aspect of your IT security challenges or if you have any other IT requirements.
